

Massachusetts Pre-Apprenticeship and Vocational School Training Program

TRAIN THE TRAINER

Did you enjoy your week with the Massachusetts Pre-Apprenticeship and Vocational School Training Program?

We have another GREAT Opportunity for you!

Join us for a week-long program of “Train the Trainer”. Where teachers will participate in an externship program to learn more about horizontal construction with the intention of increasing learning opportunities for students interested in horizontal construction. Teachers will also bring this enhanced knowledge of the industry and its career pathways back to the academic setting to be shared with students, school counselors, educators and parents. Ten graduates of the Massachusetts Pre-Apprenticeship Program will stay on campus for the week. NELTA instructors will help train you to teach your incoming classes.
